

OSMO SYSTEMS FOR ANIMAL MEDICATION

MEDICINE MIXER
WITH TANK CAPACITY:
120 L REF.4M63129
50 L REF.4M63050

DESCRIPTION:

OSMO medicine mixer designed to adequately mix medicine for its correct dosage according to the need.

The only standardized mixer with connection to both 230 V and 12 V.

Various tank capacity: 120 L / 50 L, with a hermetic lid.

Stainless steel rod and mixing blade.

Beating revolutions: 78 rpm without load

Includes the LED diode to indicate the phases of rest and movement

120L – dimensions: diameter 495 mm, height 880; weight 14.8kg

50L – dimensions: diameter 465 mm, height 570; weight 8.2kg

FUNCTIONING:

Both rotation time and rest time can be customized through two rotary switches with the positions for the operation of the beater.

GIRO: to regulate time of the rotating cycle in minutes

STOP: to regulate rest time in minutes

Each new programmed cycle is carried out in one direction, alternating rotation and rest times 5 times in a row, then the direction of rotation is inverted
